Emile Georgi is a seasoned expert that is well versed in management systems, business process improvement, and international standards. With over 25 years of experience, he has served industrial companies in Europe, the Middle East, and North Africa to create business value through certified systems that meet the highest international standards. He is passionate, detail-oriented, and quality-driven.

« I am committed to help the businesses that I work with achieve the highest levels of quality and operational excellence by building the right management systems and processes, integrating them across operations, and training employees to secure commitment and successful implementation. I know the ins and outs of effective process improvement and quality management aim to guide clients to achieve and maintain international standards and best practices. My ultimate objective is to help my clients ensure they have world-class operations.»

I have extensive experience and knowledge in guiding multinational manufacturing organizations to set internationally certified frameworks, processes, standards, and management systems. I will help my clients throughout the certification process, from assessing readiness, conducting meticulous management system and process audits, identifying potential nonconformities, recommending proper documentation, systems, processes, and help set action plans to mitigate impacts on business and ensure process effectiveness and efficiency.

I aim to help my clients drive business performance and comply with international standard requirements while effectively integrating client and employee needs into systems.

ABOUT EMILE

Emile Georgi began his career at Sanita SAL in 1995 as Area Sales Supervisor, prior to which he worked in the sales department of Transmediterranean, the sole agent of Procter & Gamble (P&G) in Lebanon. In this role, he provided guidance and training to the sales team on product knowledge and sales matters. In 2001, he was assigned as Sanita Management Representative. Until moving on to serve other INDEVCO companies, Emile maintained and improved Sanita’s Quality Management System (QMS), achieving ISO 9001 and CE Mark product compliance certifications.

In 2007, Emile moved to INDEVCO Organizational Development Department, where he assumed the role of Quality Manager and Trainer for 8 years. Emile was responsible for implementing the QMS across INDEVCO business units. He performed internal and external audits on INDEVCO companies and suppliers, communicated with external experts for consultancy regarding certification and various other issues, and acted as internal consultant on several issues within the group.

In 2015, Emile transitioned to INDEVCO Flexible Packaging division as Process Improvement Area Manager for Dubai, Egypt, Lebanon, and the United Kingdom. He worked on identifying, analysing, and improving business processes within the group to reach a lean value chain and operation excellence and meet objectives related to cost reduction, faster cycle times, performance and hence profits.

In this role, he was fundamental in guiding companies in the division to acquire certifications including ISO 9001:2015 - Quality management systems, ISO 22000 – Food safety management, OHSAS 18001 - Occupational Health and Safety Assessment Series (recently upgraded to ISO 45001), ISO 17025 for testing and calibration laboratories, Sedex Members Ethical Trade Audit “SMETA”, REACH compliance, and BRCGS Global Standard for Packaging Material – Issue 6. He also played an active role in standard setting in Lebanon and Saudi Arabia, representing the group in Libnor and Saudi Arabia Standards Organization (SASO).

In 2020, he launched INDEVCO Consultancy Business Process Improvement and Excellence services.
